

FAMILY PHOTO SESSIONS

FAMILY SESSIONS are intended to be laid back and stress free. Photoshoots typically last around 45 minutes and take place at the location of your choice.

EACH SESSION INCLUDES shooting and editing time along with a digital download of your images. Session fee is \$300 and is due the day of the shoot.

SESSIONS ARE INTENDED to be casual and natural with minimal posing. Play and laughter is encouraged! The more you are able to forget about the camera, the more radiant your photos will shine.

CHOOSING ATTIRE can be stressful. To make it easy, I suggest choosing a central color and picking clothing around this. Matching outfits and trendy prints can tend to make the photos look dated, so choosing simple pieces will make your images appear timeless.
